

COVID-19 Risk assessment – Opening schools

The Government has asked schools to adhere to the following:

It is the Government’s plan that all pupils, in all year groups, will return to school full-time from the beginning of the autumn term.

This new guidance (July 2020) is intended to support schools, both mainstream and alternative provision, to prepare for this. It applies to primary, secondary (including sixth forms), infant, junior, middle, upper, school-based nurseries and boarding schools. We expect independent schools to follow the control measures set out in this document in the same way as state-funded schools. The guidance also covers expectations for children with special educational needs and disability (SEND), including those with education, health and care plans, in mainstream schools.

The link to new and additional guidance is as follows:

<https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

<https://www.gov.uk/guidance/education-and-childcare-settings-new-national-restrictions-from-5-november-2020>

Separate guidance is available for early years, further education colleges and for special schools, as follows:

<https://www.gov.uk/government/publications/coronavirus-covid-19-early-years-and-childcare-closures/coronavirus-covid-19-early-years-and-childcare-closures>

Separate guidance for SEN school provision:

<https://www.gov.uk/government/publications/guidance-for-full-opening-special-schools-and-other-specialist-settings/guidance-for-full-opening-special-schools-and-other-specialist-settings>

The government guidance says the following:

Schools must comply with health and safety law, which requires them to assess risks and put in place proportionate control measures. Schools should thoroughly review their health and safety risk assessments and draw up plans for the autumn term that address the risks identified using the system of controls set out below. These are an adapted form of the system of protective measures that will be familiar from the summer term. Essential measures include:

- a requirement that people who are ill stay at home

- robust hand and respiratory hygiene
- enhanced cleaning arrangements
- active engagement with NHS Test and Trace
- formal consideration of how to reduce contacts and maximise distancing between those in school wherever possible and minimise the potential for contamination so far as is reasonably practicable

How contacts are reduced will depend on the school's circumstances and will (as much as possible) include:

- grouping children together
- avoiding contact between groups
- arranging classrooms with forward-facing desks
- staff maintaining distance from pupils and other staff as much as possible

Employers must protect people from harm. This includes taking reasonable steps to protect staff, pupils and others from coronavirus (COVID-19) within the education setting.

Schools have remained open to some pupils since 20th March, welcoming more pupils back from 1 June. Schools should therefore have already assessed the risks and implemented proportionate control measures to limit the transmission of coronavirus (COVID-19) for a limited number of pupils.

As part of planning for full return in the autumn term, it is a legal requirement that schools should revisit and update their risk assessments (building on the learning to date and the practices they have already developed), to consider the additional risks and control measures to enable a return to full capacity in the autumn term. Settings should also review and update their wider risk assessments and consider the need for relevant revised controls in respect of their conventional risk profile considering the implications of coronavirus (COVID-19). Schools should ensure that they implement sensible and proportionate control measures which follow the health and safety hierarchy of control to reduce the risk to the lowest reasonably practicable level.

School employers should have active arrangements in place to monitor that the controls are:

- effective
- working as planned
- updated appropriately considering any issues identified and changes in public health advice.

The risk assessment template below sets out the known hazards and important controls that have been advised either by the Government/DfE, the World Health Organisation (WHO), Public Health England (PHE), NHS (safe practice) or good practice. Some are suggested measures that may be or may not be applicable to your school and specific education setting. The responsible person within the school should use this information to formulate a plan / safe procedures that fit your school.

There are some specific issues that are addressed in the risk assessment, but for clarity, please read the full Government advice to schools.

Personal Protective Equipment (PPE) including face coverings and face masks:

The latest guidance received on November 5th 2020 states:

Face coverings

In primary schools and education settings teaching year 6 and below, there is no change to the existing position. It is not mandatory for staff and visitors to wear face coverings. In situations where social distancing between adults in settings is not possible (for example when moving around in corridors and communal areas), settings have the discretion to recommend the use of face coverings for adults on site, for both staff and visitors.

In schools where pupils in year 7 and above are educated, face coverings should be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained. This was already the case for pupils in year 7 and above, and staff and visitors for those schools that were in areas where local alert level 'high' and 'very high'.

Some individuals are exempt from wearing face coverings and we expect adults and pupils to be sensitive to those needs.

Face coverings should also be worn by pupils in year 7 and above when travelling on dedicated school transport to secondary school or college.

PPE is needed in a very small number of cases including:

- Children, young people and students whose care routinely already involves the use of PPE due to their **intimate care needs** should continue to receive their care in the same way.
- If a child, young person or other learner becomes **unwell with symptoms of coronavirus** while in their setting and needs direct personal care until they can return home. A facemask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then gloves, an apron and a facemask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example, from coughing, spitting, or vomiting, then eye protection should also be worn.
- PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as a very young child or a child with complex needs). More information on PPE use can be found here <https://www.gov.uk/government/publications/safe-working-in-education-childcare-and-childrens-social-care/safe-working-in-education-childcare-and-childrens-social-care-settings-including-the-use-of-personal-protective-equipment-ppe>

The system of controls:

Protective measures

This is the set of actions schools must take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail in the sections below.

Prevention:

- 1) Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school.
- 2) Clean hands thoroughly more often than usual.
- 3) Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.
- 4) Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach.
- 5) Minimise contact between individuals and maintain social distancing wherever possible.
- 6) Where necessary, wear appropriate personal protective equipment (PPE).

Numbers 1 to 4 **MUST** be in place in all schools, all the time.

Number 5 **MUST** be properly considered and schools must put in place measures that suit their particular circumstances.

Number 6 applies in specific circumstances identified on the risk assessment.

Response to any infection

- 7) Engage with the NHS Test and Trace process.
- 8) Manage confirmed cases of coronavirus (COVID-19) amongst the school community.
- 9) Contain any outbreak by following local health protection team advice.

Number 7 to 9 **MUST** be followed in every case where they are relevant.

Social distancing in early years and primary schools:

We know that, unlike older children and adults, early years and primary age children cannot be expected to remain 2 metres apart from each other and staff. In deciding to bring more children back to early years and schools, we are taking this into account. Schools should therefore work through the hierarchy of measures set out above:

- Avoiding contact with anyone with symptoms
- Frequent hand cleaning and good respiratory hygiene practices
- Regular cleaning of settings
- Minimising contact and mixing

The overarching principle to apply is **reducing the number of contacts between children and staff**. This can be achieved through **keeping groups separate (in 'bubbles')** and through **maintaining a distance between individuals**. These are not alternative options and both measures will help, but the balance between them will change depending on:

- Children's ability to distance
- The layout of the school
- The feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary).

It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible.

It remains important to reduce contact between people as much as possible, and we can achieve that and reduce transmission risk by ensuring children, young people and staff where possible, **only mix in a small, consistent group** and that small **group stays away from other people** and groups.

Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible. Siblings may be in different groups.

All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 meters from other adults. Where this is not possible with younger children, teachers in primary schools can still work across groups if it is required to enable full educational provisions. Supply Teachers, peripatetic teachers and temporary staff may move between schools if required.

Primary schools:

It is recommended that groups should be kept as small as possible. If this can be smaller than a year group it should be. So a normal class size may be appropriate. Schools should demonstrate that they are keeping students in as small and consistent groups as possible. Large gatherings such as assemblies or collective worship should be avoided.

Social distancing in primary schools is difficult. Adults should remain 2 metres apart where possible, close face to face contact should be avoided and contact within 1 metre of anyone must be limited. For children that are old enough, they should be supported to maintain distance and not touch staff or their peers where possible. It is recognised that this will not always be possible with the youngest students.

Changes to classrooms so that students sit side by side and facing forwards, rather than face to face or side on and perhaps moving unnecessary furniture may be required.

Secondary schools:

Groups should be kept as small as possible but it is recognised that due to timetabling and different subjects this is likely to be year groups rather than one class. Large gatherings such as assemblies or collective worship should be avoided.

It is strong public health advice that staff in secondary schools maintain distance from their pupils, staying at the front of the class, and away from their colleagues where possible. Ideally, adults should maintain 2 metre distance from each other, and from children. For children that are old enough, they should be supported to maintain distance and not touch staff or their peers where possible.

Changes to classrooms so that students sit side by side and facing forwards, rather than face to face or side on and perhaps moving unnecessary furniture may be required.

Government guidance advises the following:

Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around the school, they can look to implement year group sized 'bubbles'. Whatever the size of the groups, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups.

Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups, the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate.

Both approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially.

Measures not in the classroom:

Groups should be kept apart and movement around the school site kept to a minimum. Schools should avoid busy corridors, entrances and exits. Breaks and lunchtimes should be staggered. Large gatherings such as assemblies and collective worship should be avoided. The use of staffrooms should be minimised. Staff spaces that are shared must be planned to enable social distancing and suitable sanitising.

Measures for arriving at and leaving school:

Where travel to school patterns allow staggered start and finish times in your school, you should consider this to keep groups apart. Schools must communicate this effectively to parents and students to prevent congestion or large gatherings at the start and finish of each day.

Schools should implement a process for removing face coverings when pupils or staff who use them arrive at school. Pupils should be taught how to do this correctly (not touching the front of their face), washing hands immediately on arrival, disposing of temporary coverings appropriately and placing reusable ones in plastic bags to take home.

Equipment in schools:

For individual and very frequently used equipment such as pencils and pens, it is recommended that staff and pupils have their own items they are NOT shared.

Classroom based resources can be shared within a bubble. These must be cleaned regularly as should surfaces. Resources shared between bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously between use or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics).

Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, and the school should ensure such resources are cleaned when they are returned to school.

Outdoor equipment should be more frequently cleaned. This also applies to resources inside and outside by wraparound care providers. It is recommended that students limit the amount of equipment they bring to school to only essentials. Shared resources can be taken home but avoided where unnecessary. All such resources will need to be cleaned before used by others.

Engage with the NHS Test and Trace process:

Schools must ensure they understand the NHS Test and Trace process and how to contact their local Public Health England protection team. The guidance should be consulted to ensure this is all fully understood and followed by staff members and parents/carers.

Manage confirmed cases of COVID-19:

Schools must take swift action when they become aware that someone who has attended has tested positive for COVID-19. They should contact the local health protection team. This includes, implementing their advice, specific procedures and containing any outbreak as directed.

Alternative Provision (AP):

The government advises that such provision should return full time in September. AP schools are required to complete a risk assessment working through the system of controls that are outlined in the guidance, adopting measures that ensure they meet each control in a way that addresses the risk identified in their assessment, works for the setting and allows them to deliver a broad and balanced curriculum.

Transport arrangements:

Transport to and from school should be assessed if provided by the school or if managed by the school team. The school needs to consider:

- How can this be managed safely or adapted to for in line with current social distancing requirements?
- Do school start times need to be adjusted to accommodate staff and students getting to school safely?
- When using public transport, rules that apply to the general population will apply.

Dedicated school transport – no public use

Normal public transport social distancing rules do NOT apply. The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in the overall guidance for schools. Schools should consider:

- How pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school
- Use of hand sanitiser upon boarding and or disembarking

- Additional cleaning of vehicles
- Organised queuing and boarding where possible
- Distancing within the vehicle wherever possible
- The use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group.

Premises Management

In conjunction with this risk assessment and guidance Judicium Education have previously provided a detailed risk assessment template for 'Managing Premises Functions' during this time and a six-part series of guidance documents (in the form of newsletters) titled 'Managing School Premises during COVID-19 outbreak'. The school's management and H&S Lead have been sent this guidance and have access to all Judicium templates. The premises team should refer to this information in order to ensure the school buildings are suitably managed at this time.

It is important that, prior to re-opening for the autumn term, all the usual pre-term building checks are undertaken to make the school safe.

Please note:

The template addresses the general site and school use risk assessment. The government guidance asks that all school risk assessments are reviewed that may be affected. This will include but is not exclusive to: Use and supervision of playgrounds, General classrooms, Common areas, Cleaning, Practical subjects (Science, PE, Art, DT, Performing Arts etc.).

There is specific guidance from organisations such as the Association for Physical Education that should be consulted. Each Head of Department (specialists in their area) must review these risk assessments, make suitable amendments and show how they are adhering to guidance. This is specific to your school and department.

Sharing Coronavirus (COVID-19) risk assessment

Schools should share the results of their risk assessment with their workforce. If possible, they should consider publishing it on their website to provide transparency of approach to parents, carers and pupils (The HSE would expect all employers with over 50 staff to do so).

For further information regarding this assessment, please refer to your assigned Judicium Education Health & Safety consultant.

Health and Safety Risk Assessment – Reopening Schools September 2020 V9 – COVID-19

| 8. | <p>Spread/contraction of COVID-19 due to lack of social distancing measures. In particular school employees.</p> | <ul style="list-style-type: none"> • Employees are required to conform with social distancing requirements at all times; • School offices are either reduced in occupation and desks are positioned in order to provide adequate separation or staff are moved to other areas to reduce contact; • Staff rooms are not to be used unless these are large enough to safely accommodate current staff numbers at a safe social distance from each other; • Each staff area has been assessed, a maximum number of staff occupancy per room has been placed on the door; • Staff are encouraged to bring a packed lunch and use the larger dining areas, keeping a suitable distance from other occupants; • Students will practice social distancing from staff appropriate to their age and as described in additional points of this assessment; • Employees will be provided with and wear PPE when required in accordance with Government guidance. | Low | |
| 9. | <p>Spread/contraction of COVID-19 due to insufficient First aid measures or poor arrangements when handling student's medication. This includes:</p> <ul style="list-style-type: none"> • Dealing with general First aid; • Lack of trained first aiders; • Dealing with a suspected case of Covid-19; | <ul style="list-style-type: none"> • A specific First aid needs assessment has been completed – see other 'First Aid Needs assessment – COVID-19'; • The FA assessment takes into account numbers and ages of students, number and training of employees; | Low | |

| | | | | |
|--|---|---|--|--|
| | <ul style="list-style-type: none"> • Inappropriate handling/removal of clinical waste • Intimate care procedures. | <ul style="list-style-type: none"> • This information forms the decision on what activities and groups can safely be managed within the school; • This includes sufficient first aiders for the school to the number of students with a particular focus on early years provision; • Qualified first aiders are in place at an appropriate ratio for paediatric first aiders for Early Years provision (Note there is a three month additional time allowed for requalification due to current restrictions); • The school has a specific room/area dedicated for suspected cases of COVID-19; • Where an individual exhibits symptoms during the school day, the individual will be escorted to the marked Isolation Room/Area to isolate them from the main population until additional medical assistance can be gained. This may be 111 support, an ambulance or until they leave the site to self-isolate; • Staff escorting the individual will be provided with disposable gloves and apron if the 2 meter social distancing rule cannot be maintained Where the risk of contact with droplets to the face, e.g. from coughing or vomiting, face protection should be provided • The classroom area or workspace the individual leaves will be subject to a hard surface clean with appropriate disinfectant products and all waste double bagged and stored securely for 72 hours before disposal. | | |
|--|---|---|--|--|

| | | | | |
|--|--|---|--|--|
| | | <ul style="list-style-type: none"> • Staff or contractors carrying out the area clean should be provided with a minimum of disposable gloves, aprons, mop heads or paper towels. • Where visible contamination, e.g. saliva droplets, is present face protection in the form of mask, goggles or face shield will be provided. • All building users advised re monitoring their own health, reporting of symptoms and self-isolating • Where available, the school will provide individual displaying symptoms with a home testing kit – where the individual is a pupil, the kit will be provided to their parent or carer • First aiders required to assist this person will wear full PPE including, apron, gloves, mask and visor; • First aiders have completed appropriate training for 'donning and doffing' PPE; • First aiders have completed appropriate training for 'donning and doffing' PPE – PHE guidance: https://www.gov.uk/government/publications/covid-19-personal-protective-equipment-use-for-non-aerosol-generating-procedures • PPE is disposed of in accordance with NHS COVID-19 waste management guidance; https://www.gov.uk/government/publications/covid-19-decontamination-in-non-healthcare-settings | | |
|--|--|---|--|--|

| | | | | |
|--|--|--|--|--|
| | | <ul style="list-style-type: none"> • The first aid room is cleaned frequently and after each use (when first aid care has been provided). • Staff dispensing medication to students should minimise contact and their wash hands before and after dispensing the medication. If required, gloves will be worn by staff when giving medication • Where appropriate, students should take the medication out of the blister packs/bottles then place the unused ones back in the cupboard, etc. <p>Waste disposal measures Waste control measure from possible cases of COVID-19 and cleaning of areas where possible cases have been identified (including disposable cloths and tissues) are as follows:</p> <ul style="list-style-type: none"> • Put in a plastic rubbish bag and tied when full; • The plastic bag is placed in a second bin bag and tied; • It is put in a suitable and secure place and marked for storage until the individual's test results are known; • Waste is stored safely and kept away from children; • Waste is not put in communal waste areas until negative test results are known or the waste has been stored for at least 72 hours; • If the individual tests negative, this can be put in with the normal waste; | | |
|--|--|--|--|--|

| | | | | |
|----|---|--|-----|--|
| | | <ul style="list-style-type: none"> • If the individual tests positive, then waste is stored for at least 72 hours and then put in with the normal waste; • If storage for at least 72 hours is not appropriate, a collection as a Category B infectious waste is arranged by either local waste collection authority if they currently collect your waste or otherwise by a specialist clinical waste contractor. They will supply you with orange clinical waste bags for waste bags can be sent for appropriate treatment. | | |
| 10 | <p>Spread/contraction of COVID-19 due to lack of social distancing measures for external visitors to the school, including:</p> <ul style="list-style-type: none"> • Parents; • Maintenance contractors; • External Teachers; • Inspectors; • Delivery personnel | <ul style="list-style-type: none"> • Parents are not permitted to enter the school; • Parents have been informed to call the school office or email if they have any questions or concerns; • If parents need to drop off items for students, they should be left at the school's main entrance for staff to collect; • Staff are able to meet via video link parents if face to face meetings are required; • For those who have to enter the school reception, screens/counter-top Perspex shields have been installed to reduce the risk to school staff; • Touch screen sign in equipment in Reception to be wiped after use • Visitors will only be permitted into the school if they have an appointment; | Low | |

| | | | | |
|--|--|---|--|--|
| | | <ul style="list-style-type: none"> • A record of all visitors, including contractors, to site will be kept and maintained; • Visitors will only be permitted at their designated time and will be asked to wait outside of the school building until their school contact is available; • The school contact is required to attend reception in good time to meet their visitor; • Meetings with visitors will be via video conference or phone where possible; • If not possible social distancing measures will be adhered to at all times; • Face to face meetings in small rooms or within 2m are not permitted; • Premises' contractors will be managed in accordance with a separate premises maintenance risk assessment written specifically for this time; • Deliveries will be accepted at designated quiet times only; • Delivered items will be left outside of the school building for staff to collect; • The number of ITT trainees, supply teachers, peripatetic teachers and volunteers has been reduced where possible; they all receive an induction to inform them of the school's risk assessment and controls to prevent infection risks in the school, when pertinent, relevant training is also provided. | | |
|--|--|---|--|--|

| | | | | |
|-----|--|--|-----|--|
| 11. | Spread/contraction of COVID-19 due to lack of social distancing measures. This includes unsuitable use of toilets. | <ul style="list-style-type: none"> • Toilet use protocols are managed by Teachers if located adjacent to classrooms; • Student use of toilets outside of early years' is managed by staff and communicated to students; • Toilets are cleaned throughout the day; • Students and staff are encouraged to close toilet lids where applicable before flushing. | Low | |
| 12. | Lack of staffing / insufficient staff ratios | <ul style="list-style-type: none"> • Adequate ratio of staff to children will be maintained and is assessed on a daily basis, based on potential staff illness or self-isolation; • Children are suitably supervised at all times; | Low | |
| 13. | Lack of suitable premises management | <ul style="list-style-type: none"> • The school adheres to the government guidance on managing buildings that are partially open; • The school has applied the series of guidance documents and advice sent out by Judicium regarding continued premises management at this time; • Premises staff levels are maintained and suitable for the use of the building; • Appropriate cleaning and premises staffing levels are in place; • Waste removal and enhanced cleaning programs are in place for the potential coronavirus contaminated waste; • Contingency in place for sudden premises staff absence; • The guidance provided in Judicium Education Newsletters 'Managing School | Low | |

| | | | | |
|-----|--|--|-----|--|
| | | <p>Premises during COVID-19 outbreak', a six-part series of guidance documents (in the form of newsletters) and a 'Managing Premises Functions' separate risk assessment has been completed;</p> <ul style="list-style-type: none"> • Good ventilation can help reduce the risk of spreading coronavirus, Premises Manager will ensure the schools mechanical ventilation system is functioning correctly. | | |
| 14. | Hazardous substances management, unsuitable COSHH management and unsafe use of chemicals leading to ill-health, environmental contamination or fire. | <ul style="list-style-type: none"> • Suitable storage and management of flammable hand sanitizer is in place; • All chemicals used for the cleaning of school buildings and equipment is COSHH assessed and managed appropriately; • Material safety data sheets are held for all chemicals and readily available to all staff; • All cleaning chemicals are stored safely and securely in accordance with requirements; • COSHH safety training has been completed by all those using chemicals for cleaning; • Appropriate PPE is available for all cleaning including suitable PPE for cleaning of potential coronavirus contaminated rooms or equipment. | Low | |
| 15. | Fire and evacuation procedures being inadequate at this time due to lack of trained fire wardens or occupants being spread around the building without suitable procedures in place. | <ul style="list-style-type: none"> • Evacuation plans including the following have been reviewed: <ul style="list-style-type: none"> <input type="checkbox"/> Safe assembly points for occupants following social distancing requirements; <input type="checkbox"/> Safe exit via the nearest available final exit; | Low | |

| | | | | |
|----|--|--|-----|--|
| | | <ul style="list-style-type: none"> <input type="checkbox"/> Training occupants of any changes to evacuation; <input type="checkbox"/> Ensuring there are enough trained fire wardens on-site with the ability to sweep all used areas of the school; <input type="checkbox"/> Use of the school has been reduced to enable safe sweeping and evacuation. <ul style="list-style-type: none"> • All other fire system testing and maintenance has continued as normal. | | |
| 16 | Transmission of Covid-19 via food preparation, handling, storage, contact surfaces or packaging. | <ul style="list-style-type: none"> • The Kitchen/Catering Manager has reviewed and implemented the <u>Guidance for food businesses on coronavirus (COVID-19)</u> • The Kitchen/Catering Manager has reviewed and implemented <u>FSA guidance on good hygiene practices</u> in food preparation and <u>PHE guidance</u> • The HACCP processes and waste disposal arrangements have been reviewed to reduce the spread of coronavirus | Low | |
| 17 | Spread/contraction of COVID-19 during an educational visit. | <ul style="list-style-type: none"> • In line with Government advice, overnight and overseas educational visits will not be carried out during the autumn term • A risk assessment – in line with the school’s policy will be carried out for non-overnight domestic educational visits. | Low | |
| 18 | Spread/contraction of Covid-19 due not acting appropriately when a case is suspected or confirmed. | <ul style="list-style-type: none"> • If anyone becomes unwell in school with a continuous cough or a high temperature they are sent home/their parents or carer are contacted to collect them and they are advised to | Low | |

| | | | | |
|--|--|---|--|--|
| | | <p><u>COVID-19: guidance for households with p coronavirus infection</u></p> <ul style="list-style-type: none"> • Parents/Carers are informed that a responsible adult should be on standby in order to collect their child from school if they become unwell during the school day. The name of the person who will collect the child needs to be provided and recorded for safeguarding • The school has identified the <u>Local Health Protection Team (HPT)</u> so they can be contacted immediately in the case of a case, the HPT details are available to the SLT • The school keeps informed of Government and Department for Education guidance and updates • To avoid attendance to the school, remote education plans are in place for students or groups that need to self-isolate • A contingency plan is in place for a local outbreak, and if the school is asked to close temporarily by HPT or local authority to help control transmission. The plan may involve a return to remaining open only for vulnerable children and the children of critical workers only, and providing remote education for all other pupils. | | |

| | |
| | |

Please note:

All controls are subject to change should government guidance change due to changes to the 'R' rate. This could change on a daily basis. Government and DfE guidance MUST be regularly reviewed. Risk assessment must be reviewed if there is a significant change.

In order to calculate the risk level please use the Judicium Education 'Guide to risk assessment'. This document is available on our template site and includes a risk matrix. If required, you have unlimited access to the Judicium e-learning library including 'Risk Assessment Training for Schools – General'.

*Following assessment if no further actions are assessed to be required please mark an **X** in the "Further Actions" box. If however additional controls or actions are assessed to be required please place a **√** in the box and note the action in the action plan.*

Any further actions identified should be completed before the assessed task is carried out.
